

HKL-233-375

Miniature High Pressure Pressure Transducer

- Excellent Stability
- High Natural Frequencies
- All Welded Construction
- Hermetic Sealed Package
- Aerospace Quality Components
- Thermorad Jacket Compatible With All Aircraft Fluids
- Robust Construction
- Patented Leadless Technology

The HKL-233-375 is a miniature threaded pressure transducer. The hexagonal head and o-ring seal ma

The HKL-233-375 utilizes Kulite's Patented Leadless Technology. A solid state piezoresistive sensing e

This advanced construction results in a highly stable, reliable and rugged instrument with all the advanta
