

ETL-200-375

Miniature 4-20mA Output Pressure Transducer

- 4-20mA Output
- 2 Wire Operation
- Hybrid Microelectronic Signal Conditioner
- All Welded Construction
- Secondary Containment on Absolute and Sealed Gage Units
- Aerospace Quality Components
- 3/8-24 UNJF or M10 X 1 Thread

ETL-200-375 transducers employ the same approach to transducer construction as the standard ETL-375.

The Kulite proprietary electronics module in this product line, however, provides a current output signal (I_o).
