

ETM-HT-375

High Temperature 5 VDC Output Pressure Transducer

- 5 VDC Output
- 350°F Temperature Capability
- Hybrid Microelectronic Regulator-Amplifier
- Flush Diaphragm
- Aerospace Quality Components

ETM-HT-375 series transducers are miniature, threaded flush diaphragm instruments. They utilize a flush

For applications where a true flush diaphragm is needed, Kulite will supply these transducers without the

Incorporation of a Kulite proprietary electronics module within the main body of this product allows for op
