

CCQ-093

Cryogenic Standard Version Miniature Pressure Transducer

- Cryogenic Operation -320°C to -250°F (-195.5°C to +120°C)
- Industry Standard
- Superb Stability
- Program Qualified in USA and Europe
- Size and Shape Ideal for Incorporation in User Designed Probes

Similar in design to the XCQ-093 Series, these sensors are specifically intended for use in cryogenic wire
