

BMD-1100

Differential Millivolt Output Pressure Transducer

- High Natural Output (Solid State, Silicon Strain Gages)
- Unprecedented Stability and Reliability (Ruggedized Internal Construction)
- Leakproof, All Welded Construction
- Utmost in Safety (Secondary Containment of Pressure Media)
- Fully Qualified (Passed Extensive Environmental Tests)
- Intrinsically Safe Applications Available

The Kulite BMD/BMDE-1100 Series pressure transducers are designed for the measurement of pressure
