

## KMPS-2-64

Pressure Scanner

- High Accuracy Digital Compensation
- High Speed Digital Output (RS-485 OR Ethernet)
- No Heating or Cooling Needed
- Wide Temperature Range (-65°F to +255°F)
- Auto Zero
- Integral Purge
- IEEE-1588 Timing
- PATENT PENDING

The KMPS-2-64 is a 64 position pressure scanner with high accuracy digital over either an RS-485 or Ethernet.

The KMPS-2-64 is ideally suited for the flight test market. The Ethernet version features IEEE-1588 timing.
