KMPS-3-64

Pressure Scanner

- High Accuracy Digital Compensation
- High Speed Digital Output (RS-485 OR Ethernet)
- No Heating or Cooling Needed
- Wide Temperature Range (-65°F to +255°F)
- Auto Zero
- Integral Purge
- IEEE-1588 Timing
- PATENT PENDING

The KMPS-3-64 is a 64 position pressure scanner with high accuracy digital output over either an RS-485 or Ethernet bus. There is an internal heater which keeps the internal temperature above freezing

The KMPS-3-64 is ideally suited for the flight and ground test market. The Ethernet version features IEE

For more information see the KMPS-3 manual
