

APPLICATION:

Terminal blocks in the proven rail mounted design especially suited for those applications where a lot of terminals have to be fitted in a limited space.

CONSTRUCTION:

- Body in durable thermosetting material.
- Terminal width of 5 mm allows maximum number of connections in a given space
- Design prevents accidental short circuit.
- Captive screws for easy assembly.
- Can be ordered together with a mounting kit containing all required mounting components.
- Can be used with the terminal lugs series A-20.131-x and A-20.132-x.

WIRE SIZE:

- Accepts wires from 0,5 mm to 2,5 mm.

TEMPERATURE RATING:

- 130 °C Max.

IDENTIFICATION:

- Mounting kit contains numbering and polarity stickers. Upon request special colorcoded stickers can be supplied

Contact Material	<i>Fe</i>	<i>NiCr</i>	<i>Cu</i>	<i>Co</i>	<i>NiAl</i>	<i>Alloy 11</i>
Calibration Code	JP	KP	TP/RP	JN/EN/TN	KN	RN
Part number	RTB-JP	RTB-KP	RTB-TP/RP	RTB-J/E/TN	RTB-KN	RTB-RN

MOUNTING KIT PART NUMBER: A-20.169-1

Mounting kit contains all the components required for mounting properly coding up to a maximum of 10 circuits

- Mounting kits consists:
- Rail 200 mm long
 - Endplate
 - Two end stops
 - Circuit identification 1 thru 25

For terminal blocks over 10 circuits please contact us.
