

### UÇAK BASINÇ TRANSDÜSERLERİ

|                                                                                     |                                                                                                      |
|-------------------------------------------------------------------------------------|------------------------------------------------------------------------------------------------------|
|    | 5 VDC Output High Accuracy Microprocessor Corrected Aircraft IS® Pressure transducer<br>APTE-DC-1100 |
|    | Electronic Pressure Switch<br>EPS-1000                                                               |
|    | 5 VDC Output IS® Pressure Transducer<br>ETM-422-375                                                  |
|    | Aircraft Pressure Transducer<br>APT-20-1000                                                          |
|    | Aircraft Pressure Transducer<br>APT-51-1000                                                          |
|    | Electronic Pressure Switch<br>EPS-1000                                                               |
|   | Aircraft Pressure Transducer<br>APTE-6-1000                                                          |
|  | Miniature High Pressure IS® Pressure Transducer<br>HKM-233-375                                       |
