

## ATS-30-1000

Aircraft Temperature Sensor

- 5V Output
- High Natural Frequencies
- Unprecedented Stability and Reliability To High Temperatures (Ruggedized Internal Construction)
- Leakproof, All Welded Construction
- No Leak After Exposure To 2000°F (1093°C)
- Utmost In Safety (Secondary Containment Of Pressure Media Fully Qualified)
- Passed Extensive Environmental Tests
- FAA Authorization TSO-C47
- FAA Manufacturers Maintenance Facility

The ATS-30-1000 utilizes a thin film platinum temperature sensor which provides a short response time
