

## HKM-375 CO

Miniature High Pressure Pressure Transducer

- Excellent Stability
- All Welded Construction
- Robust Construction
- High Natural Frequencies
- 3/8-24 UNJF or M10 X 1 Thread

The HKM-375 CO is a miniature threaded pressure transducer. The hexagonal head and o-ring seal ma

The HKM-375 CO utilizes a flush metal diaphragm as a force collector. A solid state piezoresistive sensi  
is welded to a stainless steel body.

This advanced construction results in a highly stable, reliable and rugged instrument with all the advanta
